## Changes and feedback

- How about trying to hold VNUG late springtime?
  - More user presentations are valuable (if possible).
  - Can HP show hardware “in real life”? Show the Blade server?
  - Stagger the seating so people in the back can see.
  - Name badges with delegate name and company
- Above expectations.
  - Well organized and “lagom” as always.
  - Very good organization, structure, schedule.
  - Would be even better if the attendance was greater.
  - Great location, great people, great experience.
